DurrAssociates, LLC

Enterprise Security Architecture Advisory

Zero Trust Microsegmentation • Firewall Governance • PCI/SOX Readiness

Frisco, TX | inquiries@durrassociates.com | www.durrassociates.com

EXECUTIVE VALUE: Reduce segmentation risk, improve firewall governance, and strengthen PCI/SOX audit defensibility through practical zero trust architecture advisory.

WHERE WE CREATE VALUE

Enterprise Risks

- Segmentation project stalls & discovery delays
- Firewall rule sprawl & obsolete access paths
- PCI/SOX evidence gaps & audit scrutiny
- Hybrid cloud & data center exposure
- Operational handoff friction between SecOps & NetOps

Business Outcomes

- Shrunk attack surface with defensible ringfencing
- Clear control ownership & actionable hygiene
- Audit-ready narratives that survive examination
- Phased, execution-ready roadmaps (0 downtime)
- Accelerated stakeholder alignment across SecOps

EXECUTIVE ADVISORY SERVICES

Microsegmentation Readiness

Traffic flow baseline, application dependency mapping, enforcement blocker identification, readiness scoring, and phased policy enforcement roadmap.

Firewall Governance & Optimization

Risk-ranked review of stale, redundant, and overly permissive rules; high-risk path cleanup; and change-control policy alignment.

PCI / SOX Evidence Readiness

Audit-defensible segmentation narratives, scoping reduction, rule validation, exception tracking, and auditor attestation packages.

Security Architecture Advisory Sprint

Time-boxed architectural reviews for cloud connectivity (AWS/Azure), hybrid data centers, firewall modernization, and Zero Trust design.

PROOF OF SCALE & EXPERIENCE

25+	13	16M	0
Years Security & Network Architecture	Global Data Centers Managed	Subscribers in Carrier-Scale Estates	Outages Caused at Enforcement

TYPICAL DELIVERABLES

- Executive assessment summary with risk-ranked findings
- Targeted segmentation or firewall governance roadmap
- Audit-ready evidence and control narrative
- Architecture decision log, action tracker & runbook

Engagement Model: Fixed-fee advisory sprints, targeted readiness assessments, architectural reviews, and ongoing policy governance.

Let's Talk: Practical roadmaps built for enterprise teams to execute without disruption.
